ABOUT ME

I am a 3rd-year student at KTU, and I have been programming for over five years. My passion for coding began early in my education and has grown ever since.

EDUCATION AND TRAINING

[01/09/2022 – Current]

Software Systems

Kaunas University of Technology

[31/08/2020 – 01/07/2022]

Secondary education

Vytauto Didžiojo universiteto Ugnės Karvelis gymnasium

City: Akademija | Country: Lithuania |

[31/05/2021 – 29/09/2021]

PHP academy learnings

Kilo Health

Country: Lithuania |

WORK EXPERIENCE

[10/2022 – Current]

Junior fullstack developer

Elitnet

City: Kaunas | Country: Lithuania

Roles and Responsibilities in Developing and Maintaining the Telco Fraud Management System

Backend Development Using Java with Spring Framework

- Utilizing Java Spring to write scalable, dynamic, and efficient code, ensuring the smooth handling of big data flow.
- Leveraging Spring subframeworks such as Spring Security to provide secure data transfer.
- Connecting services and components via Protobuffer for seamless communication.
- Implementing Elasticsearch for robust search and data retrieval functionalities.
- Integrating loggers deeply into the system to track every step of the system and data flow.
- Writing unit tests using JUnit to test the system and ensure its reliability.

Frontend Development Using Angular and TypeScript

- Transforming design specifications from Figma into functional UI/UX.
- Writing structured and scalable code by creating reusable components.
- Developing dynamic business logic to meet evolving business requirements.
- End-to-end tests using the Playwright framework to ensure the system functions properly.
- Utilizing graphical libraries (such as JointJS) to create a user-friendly UI for fraud rule creation and management.

Collaboration and Continuous Improvement

- Working closely with cross-functional teams to ensure seamless integration and optimal performance of the fraud management system.
- Maintaining continuous communication within the project team to develop the best solutions for required business logic and its demands.
- Continuously improving and optimizing code to enhance system performance and user experience.
- Participating in code reviews and contributing to best practices for code quality and development standards.

These responsibilities encapsulate a comprehensive role in developing, maintaining, and enhancing a sophisticated fraud management system, ensuring robust performance and user-centric design.

[31/05/2021 – 31/07/2021]

Auxiliary worker

LSMUL KK pharmacy

City: Kaunas | **Country:** Lithuania

My work was to help in the production of sterile solutions. Also, I assisted the employees of the nursing care sector: receiving goods, stacking them, storing them, assembling them according to the waybills, handing them over to the departments.

JOB-RELATED SKILLS

Job-related skills

- Paying attention to details
- Fast learner
- Hard working
- Working in a team
- Skilled at adopting and integrating the latest technologies

LANGUAGE SKILLS

Mother tongue(s): Lithuanian

Other language(s):

English

LISTENING B2 **READING** B2 **WRITING** B2

SPOKEN PRODUCTION B2 **SPOKEN INTERACTION** B2

Russian

LISTENING B2 **READING** B2 **WRITING** B2

SPOKEN PRODUCTION B2 **SPOKEN INTERACTION** B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

My Digital Skills

Angular | Typescript | Junit, Mockito | Spring (Spring Boot, Spring Security) | Java(OOP, Spring, REST) | ERM Databases and SQL (MySQL) | Elasticsearch (Basics) | Protobuf | Medium knowledge of JavaScript HTML CSS | Web hosting, CMS and database management experience (PHP/MySQL/Wordpress); | PHP | HTML, CSS, Javascript, JQuery | C++ | Basics of JAVA | PHP Laravel

HONOURS AND AWARDS

[01/2022]

Informatics Olympiad (senior group) II place **Awarding institution:** Kauno rajono savivaldybės administracija kultūros, švietimo ir sporto skyrius
